

RV1C

Robot vacuum cleaner

Quick Mapping

Strong Suction Power

Auto-recharge

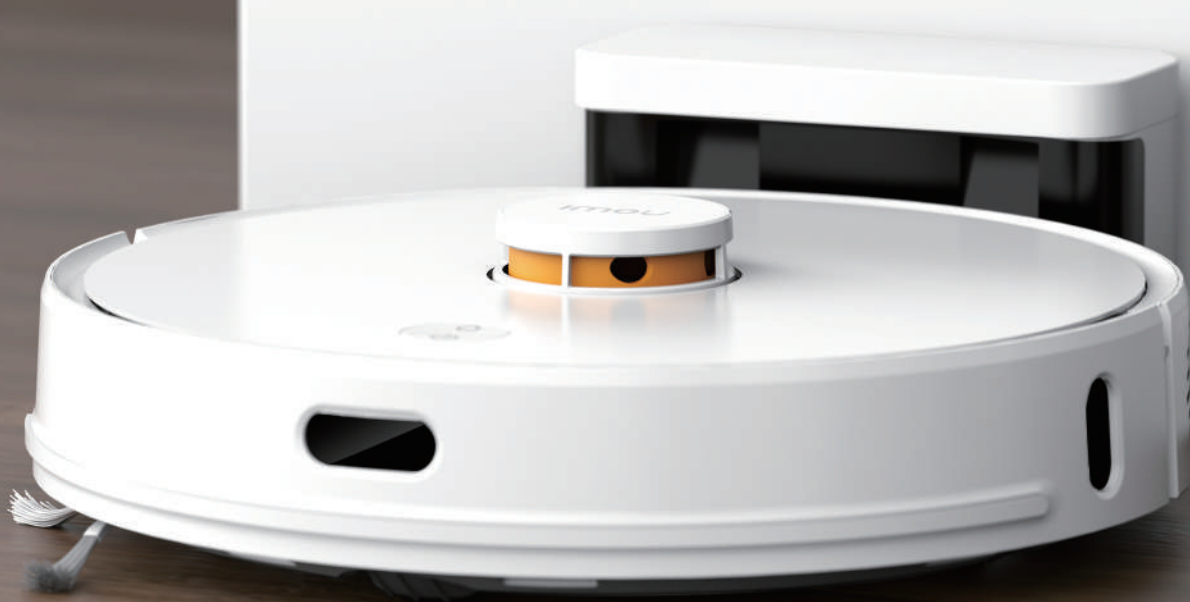

Customizable Cleaning Setting

Mop & Vacuum 2 in 1

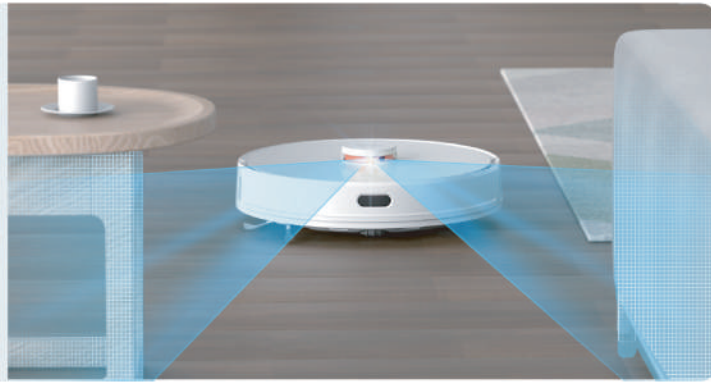

Never Miss Any Spot

Lighting-fast mapping with LiDAR

The RV1C's detection radar rotates 6 times per second and collects 2016 points for mapping, and can detect objects up to 26 feet away to quickly create a map of your room

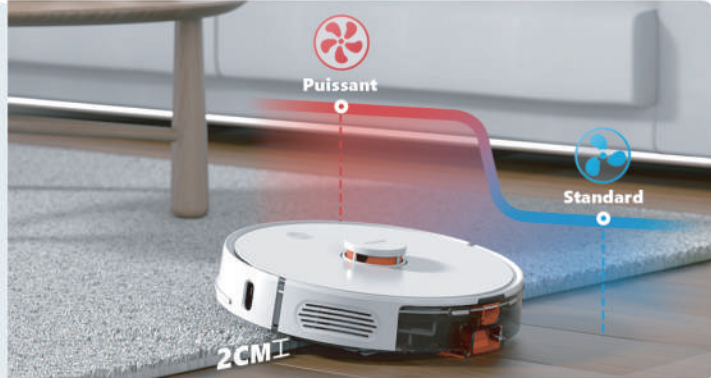

2700Pa strong suction power

The RV1C can provide a large suction power of 2700Pa, and with the V-shaped roller brush makes it easy to handle all kinds of waste

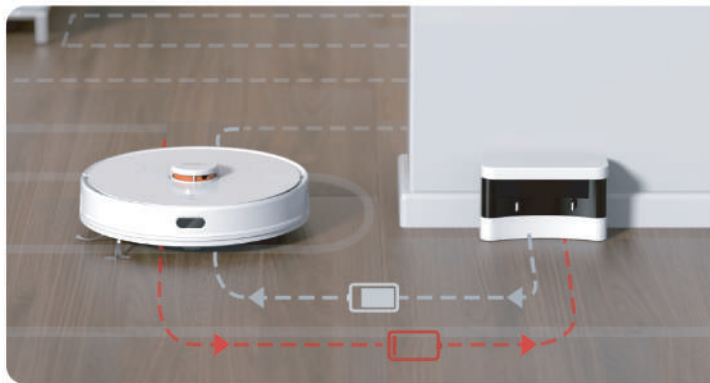

Automatic suction boost on carpets

The RV1C detects if a carpet is being swept and automatically increases suction power

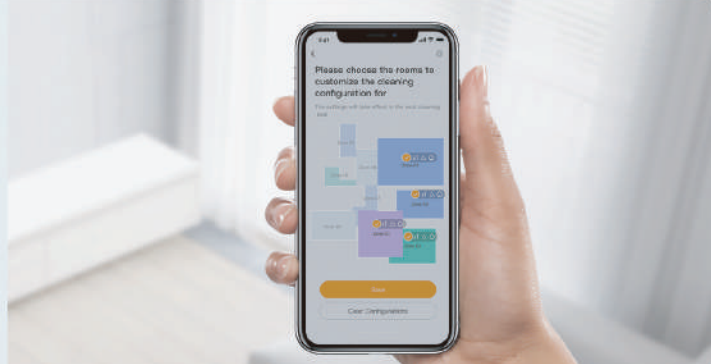

Smart charging during the cleaning process

If the RV1C runs out of power during cleaning, it will automatically return to the base station for recharging and continue cleaning from the memorized position after it is fully charged

Customizable cleaning setting

You can set the RV1C's no-go zone when cleaning, or the suction power and water consumption in different rooms through the mobile app, so that the cleaning can better match the situation of your home
